

User story 1 ("As a {user role}, I want {goal} [so that {reason}]")

1. As an investor, I want to retrieve the value of a specified ticker (without being logged in, viewing ads, opening the browser).
2. As a developer, I want to be able to scrape with a function (GET)
3. As a customer/investor, I want to use a presentable user interface.

Task 1 description (time estimate for task 1)

Task 2 description (time estimate for task 2)
